

- always a good catch

## Scampi whole Frozen – SCOTLAND

The frozen Scottish scampi are aimed at retail customers. The quantities of scampi coming from Scotland are, for one thing, much larger and it is also possible to offer the Scottish scampi right down to 8.5 cm. We have set in place a very cost effective strategy in Scotland to ensure that we will always be able to offer competitive prices in those markets where price is the overriding factor.

### Serving suggestions:

The Scampi must be cooked before consumption. Please visit [www.laeso-fish.dk](http://www.laeso-fish.dk) for serving suggestions.
